## Customers Own Material Instructions

If you have a directional fabric which will need to be joined, we need the meterage stated + 1 pattern repeat.

If you are opting to add a pillowstop to your headboard, please supply an extra **0.9 METRES** of fabric.

**All fabrics must be supplied with a Fire Retardant Certificate;** this is best arranged by your fabric supplier, and they will ensure that it is accompanied by the necessary certificates.

If no certificate is supplied, we can arrange the treatment for you at a cost of £25.00 per metre plus a £30.00 administration fee. Fabric treatment usually takes about 10 days and this may extend your delivery date by that amount.

Alternatively, if your fabric has a composition that is 75% or more natural material, it may be possible to use an interliner. The interliner charge is £79.00. We would need proof of the fabric composition when you send it to us. On receipt of your fabric, we will contact you for further instruction if required.

When sending us your material (either from yourself or directly from your supplier), could you kindly;

- Attach your name
- Attach your order reference number, which you will receive via email after placing your order
- Indicate the correct side of the fabric

And finally, the address you need to send your fabric to is;

The Headboard Workshop Ltd,  
Units 10-11 St David's Industrial Estate,  
Pengam,  
Blackwood,  
NP12 3SW.

We will confirm receipt of your fabric when it arrives with us. Any excess material will be returned to you with your order.

**If you have any queries, give us a call on 01291 628216.**
